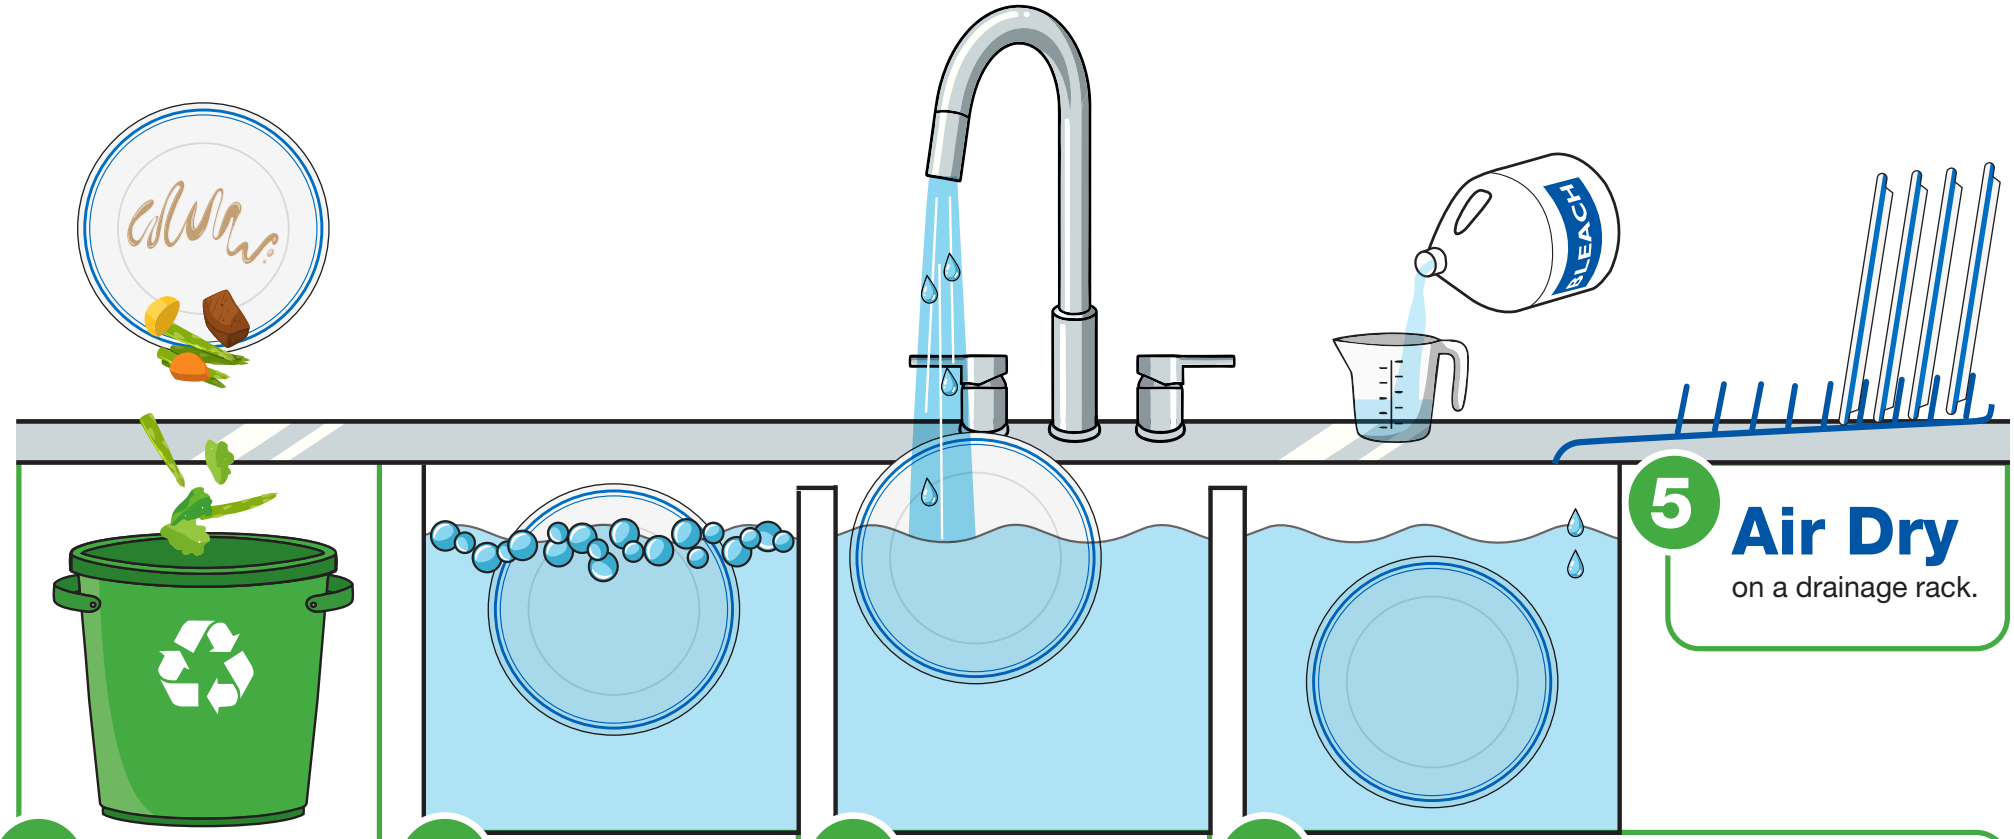
Three Sink Dishwashing Method



1 Scrape

food from utensils and pots.

2 Wash

in clean, hot, soapy water. **Do not** mix detergent and bleach.

3 Rinse

under warm running water.

4 Sanitize

- Chlorine solution of **100ppm** – *mix 2.5 ml (1/2 tsp) of chlorine bleach to 1 litre (4 cups) of warm water*

  OR

  quarternary ammonium of **200ppm** – follow manufacturer's instructions.
- Use test reagent to check sanitizer concentration.
- Let dishes soak in either sanitizer for **45 seconds**.

5 Air Dry

on a drainage rack.
