Position Overview:

The Public Health Nurse (PHN) in the Infectious Diseases Program is an integral team member providing infectious disease information and support. In addition, the PHN will conduct sexually transmitted blood borne infection and tuberculosis case and contact management as well as follow up for other diseases of public health significance. The PHN will further support the program and team members by responding to phone calls on the infectious diseases phone line, providing services upon request to external stakeholders.

See Public Health Nurse position description for further details of the Public Health Nurse role.

Minimum Requirements of the Job Include:

- Baccalaureate Degree in Nursing (4 year);
- Certificate of Registration as a Registered Nurse with the College of Nurses of Ontario, which is renewed annually;
- Current CPR Level C;
- 1 – 3 years' experience in nursing;
- Advanced oral and written communication skills to present information in various formats relevant to the audience;
- Intermediate ability to synthesize nursing theories and knowledge from the public health sciences, including the determinants of health, arts and humanities, and primary health care to develop nursing interventions with clients;
- Intermediate knowledge of the etiology of communicable diseases, and outbreak control measures;
- Intermediate knowledge and application of epidemiological principles in using strategies such a screening, surveillance, immunization, communicable disease response and education;
- Intermediate ability to critically assess and interpret health status data, trends in nursing and health-related research, and apply best practice knowledge to planning and implementation of program initiatives in a variety of settings and clients;
- Intermediate skill in conducting comprehensive holistic health assessments with individuals, families, groups and communities to identify and provide appropriate interventions to build capacity for health;
- Intermediate skill in providing health teaching, counseling, and clinical nursing care as appropriate in a variety of settings;
- Intermediate ability to incorporate principles of telepractice related to a broad range of health issues;

- Intermediate understanding of legislation, protocols and standards which are relevant to public health nursing practice;
- Intermediate skill in application of health promotion and other relevant theories (e.g. change theory), to plan and implement health promotion strategies including policy development, community mobilization, community development, social marketing, community capacity building and advocacy, and harm reduction;
- Intermediate knowledge and skill in planning and evaluating programming.
- Intermediate leadership skills including facilitation and team building skills; ability to model, support and serve as mentor for skills development.
- Intermediate skill in critical thinking, analysis and creative problem-solving.
- Intermediate time management and organization skills including priority setting.
- Intermediate skill in collaboration, negotiation and problem-solving.
- Intermediate skills in Microsoft Word, Excel, and PowerPoint and the ability to demonstrate the technological skills to support work with the program communication, information systems and databases required to support program delivery.
- Capacity to respond to rapidly redeploy to other program areas and responsibilities as needed in an actual or potential public health emergency/event, to protect, maintain and preserve the health of community residents, and mitigate the effects of the crisis.
- Demonstrate ability to work independently within established program parameters.
- Demonstrate diplomacy and political astuteness.

Preference will be given to candidates with the following qualifications which are considered assets in this competition:

- Previous knowledge and experience with vaccine preventable diseases, infectious diseases, sexually transmitted blood borne infections or tuberculosis
- Certified in Infection Prevention & Control (CIC©) by the certification board of Infection Control & Epidemiology.

Deadline: 4:00 pm, TUESDAY, JUNE 25, 2019

This is an internal union posting. External applicants may be considered when the internal recruitment process does not result in a successful internal candidate.

For further details: refer to the **Public Health Nurse** position description.

For internal SMDHU applicants interested in applying for this position, please forward your completed application to Human Resources at hr@smdhu.org referencing posting #19-19 in the subject line. Your formal application consists of submitting both an up to date résumé and a separate cover letter outlining how you meet the requirements and qualifications of this position. Please ensure you indicate in your application that you have the requirements and qualifications listed for this position otherwise it will be deemed you do not have them.

Following submission of your e-mailed cover letter and resume, you will receive a standard reply e-mail confirming your e-mail was received by SMDHU. If you do not receive this confirmation e-mail your electronic application was not received and you will not be considered. Also, if SMDHU's confirmation e-mail is dated/timed after the posting deadline, your application will not be considered.

If selected for an interview, candidates may be assessed through testing and/or by providing a presentation/portfolio highlighting examples of their work that is applicable to the position being applied to.

The Simcoe Muskoka District Health Unit is an equal opportunity employer. Accessibility accommodations are available for all parts of the recruitment process upon request. Due to the number of qualified applications we receive, only those selected for an interview will be contacted. All candidates must be legally entitled to work in Canada.
