### Used Fentanyl Patch For Patch Disposal Sheet

A patch exchange system is one way to promote the safe and effective use of opioid patches. While receiving prescriptions for the patch, you will be asked to return all used patches on a piece of paper like this. To use:

1. Stick the used patch on this sheet in the numbered box: patch should be flat so that it is totally visible.
2. Tape only the four corners of the patch with a small amount of tape so the patch is visible to pharmacy staff. You must return all of your patches to have your prescription refilled.
3. Store this sheet securely, out of reach of children and pets
4. I understand the above guidelines and agree to follow them.

By signing this form, I am acknowledging that I am aware that if any of the attached Fentanyl Patches are found to be counterfeit, I could face Criminal Charges.
