Policy Definitions and Interpretation

Direct Supervisor: The person to whom the person/position reports to which may be a supervisor, manager, director or MOH.

Contractual non –employee: A non-employee contracted through a third party to provide services to SMDHU.

Policy

The Simcoe Muskoka District Health Unit is committed to excellence in health programs and services. Our policy is to hire the best qualified candidate for any vacant or newly created position as determined through an interview and assessment process. This process may include testing components, presentations and other position-specific assessments. In times of peak demand for specific qualifications and skills, it may be difficult to fill our vacancies with qualified candidates. In this event, less qualified applicants will be considered on an underfill basis (salary will be determined by the direct supervisor in consultation with Human Resources). In the recruitment and hiring process, all individuals will be treated equally and without discrimination, per the Ontario Human Rights Code. An individual cannot be hired into a position or be put in a circumstance where an immediate family member has

supervisory responsibility involving disciplinary and/or evaluative functions within the same program and/or service.

Vacancies may be posted internally for a period of five working days, except those excluded for reasons of efficiency such as: only one known qualified internal candidate; an immediate required temporary assignment; restructuring of service area(s); internal transfers within the same job classification; or a prior temporary posting indicating the temporary position may result in a future full time or part time appointment.

Any full or part time, temporary or casual staff member are eligible to apply to an internal posting. Third party contract and volunteer staff are considered external and can apply to external vacancies only. When a vacancy is posted which will not exceed one year, the subsequent position/vacancy created by filling this posting may be filled at the Employer's discretion without posting.

An employee hired into a full or part time position will not be considered for a subsequent full or part time, position until after they have completed six (6) months of continuous service in their current position, unless the subsequent available position is in a higher salary band.

An employee hired into a temporary position must complete the duration of the temporary position before being eligible to apply to another temporary position. This does not restrict the employee from applying to a full or part time vacancy. Notwithstanding, at the discretion of the direct supervisor, employees may be allowed to apply to a subsequent temporary position which would extend their employment contract with SMDHU.

The recruitment, interview and selection process for each position will be a standardized competition, to ensure all candidates receive fair and equitable treatment. Management will refer to the Recruitment Guide.

In the event where additional hours are required in a part time position, either temporarily or permanently, the additional hours may be offered to the incumbent of the position first. The direct supervisor has the authority to assign additional hours on a temporary basis to staff in the Service without posting. The Agency has the authority to reassign positions or full time equivalents (FTE's) to meet program and service needs.
