

Concussion

Resources for Community Sports Organizations & Clubs

Concussion is an invisible brain injury that cannot be seen by an x-ray, MRI, or CT scan. Coaches, teachers, parents, teammates and medical professionals cannot diagnose concussed players just by looking at them. These online resources on concussion give players, parents, coaches and educators the tools and resources they need to prevent, recognize, and manage concussion. ([Parachute, 2016](#))

A concussion is a clinical diagnosis which can only be made by a medical doctor or nurse practitioner. It is critical that anyone with a suspected concussion be examined by a medical doctor or nurse practitioner.

[Concussion Management and return to learn](#) this is an excellent introduction video on YouTube by Dr. Mike Evans (length 10:02)
