

Preliminary List: Chains of 20 or more Food Service Premises per the definition in the *Healthy Menu Choices Act, 2015*

CURRENT as of: May 2016

The *Healthy Menu Choices Act, 2015* comes into force on January 1, 2017. It will require food service premises with 20 or more locations in Ontario to post calories on their menus. This will help Ontarians make healthier food and beverage choices when dining or ordering out and also help raise public awareness about the calorie content of food and beverages prepared outside the home.

To support implementation, the Ontario Ministry of Health and Long-Term Care (“ministry”) committed to identify chains of 20 or more food service premises that would be regulated under the *Healthy Menu Choices Act, 2015*. To that effect, we collected food service premises data from Public Health Units to assess the number of premises under each brand name and owner or operator, and conducted additional extensive verification.

This list identifies chains of 20 or more food service premises that would be regulated food service premises provided they meet the conditions per the definition on the *Healthy Menu Choices Act, 2015*.

For the purpose of the *Healthy Menu Choices Act, 2015* and its regulation, regulated food service premises include:

- Chains of food service premises: 20 or more food service premises in Ontario that operate under the same or substantially the same name, regardless of ownership, and that offer the same or substantially the same standard food items; and
- Cafeteria-style food service premises that sell food to the general public and that are owned or operated by a person that owns or operates 20 or more cafeteria-style food service premises in Ontario are regulated food service premises for the purposes of the Act and this Regulation.

Note that “food service premise” is defined in the Act as “any food premise within the meaning of the *Health Protection and Promotion Act* where meals or meal portions are prepared for immediate consumption or sold or served in a form that will permit immediate consumption on the premises or elsewhere.”

Note as well that the Lieutenant Governor in Council (“LGIC”) may make regulations to provide that a food service premise is a regulated food service premise for purposes of the Act and regulation.

This list is based on food service premises information collected by the Ministry in May 2016 and does not account for fluctuations from this date. It is not intended to be comprehensive. The list will be updated annually by the ministry based on annual data collection from Public Health Units as well as an additional verification process conducted by the ministry.

We encourage owners or operators of chains of 20 or more locations to contact us regarding any additions or removals from this list regarding their own business by emailing menulabelling@ontario.ca.

Premises on this list are only subject to the requirements of the regulation if they sell or offer for sale restaurant-type standard food items that are standardized for portion and content. Please refer to the *Healthy Menu Choices Act, 2015* [and its regulation](#) for definitions of the terms and to determine standard food items to be captured in regulated food service premises.

Note that this identification of chains of 20 or more food service premises is intended for information purposes only. Although every reasonable effort is made to present current and accurate information (as of the date noted above) about regulated food service premises, the ministry makes no guarantees of any kind and cannot be held liable for any outdated or incorrect information.

This information was compiled from third party information created and maintained by a variety of external sources, including public health units. The ministry does not control, monitor or guarantee the accuracy of the information prepared by third parties, and in no event should the ministry be responsible or liable directly or indirectly for any damage or loss caused or alleged to be caused by or in connection with the use of or reliance on any such information. Information on chains of 20 or more food service premises should not be used as a substitute for legal advice. It is your responsibility to research the accuracy, completeness and usefulness of the information below.
