

Appendix B: Simcoe Muskoka Environmental Scan Report

Simcoe Muskoka Environmental Scan Report

Purpose

The purpose of this environmental scan was to review and assess community organizations and networks whose mandates and policy work are related to the six Healthy Communities Priority Areas and to identify their mission, vision, mandate, programs and/or policy/advocacy work related to the six factors within the Healthy Communities Ontario Framework. The environmental scan will contribute to the development of the **Simcoe Muskoka Community Picture** under the Healthy Communities Fund, Partnership Stream supported by the Ontario Ministry of Health Promotion and Sport. The six priority areas of interest are: healthy eating; physical activity; tobacco use/exposure; injury prevention; mental health promotion and alcohol and substance misuse.

Method for Scanning Websites:

The Simcoe Muskoka District Health Unit team identified fifty-two organizations servicing Simcoe Muskoka for information to be collected via **website scans** to identify their mission, vision, mandate, programs and policy/advocacy work related to the six factors of interest. Please note: this environmental scan was a review of information on websites only, and may not be a complete summary of all the programs, services or policy work of these organizations if the information was not included in the website.

Organizations were first selected who provide service to all of Simcoe Muskoka and, in the absence of that, organizations who provide service in Simcoe or Muskoka and are mirrored by a similarly mandated organization in Muskoka or Simcoe, respectively. Additional organizations were selected to afford as broad a representation of the services offered in Simcoe Muskoka as possible. The following fifty-two organizations were scanned.

- 53. Addiction Outreach Muskoka Parry Sound
- 54. AIDS Committee of Simcoe County (ACSC)
- 55. Anishinabek Police Service

The consultant assigned to this project developed a data collection template with instructions (on page B-226). Organizations were scanned by the consultant using the following guidelines:

- Review of the Healthy Communities Ontario Fund Framework to gain an understanding of this new approach and the six priority areas of interest;
- Reviewed each organization's website to scan for relevant information;
- Include the information found in the data collection template, including web-links to documents if available.

Results:

The fifty-two organizations were scanned for relevant information during the months of November 2010 and January 2011. The completed data is organized in alphabetical order starting on page 11 of this report. Table 1 illustrates the service areas covered by the organizations in the environmental scan.

4. Mandate or Purpose of Organization	<p>Muskoka's trails system dates back to the early 1990s, when Bracebridge family physician David Kent began a campaign to improve the daily physical activity opportunities for local citizens. Committees of municipal councils in Muskoka's towns began to spring up, to develop trails across the district.</p> <p>Those municipal committee representatives got together to collaborate on promoting the trails in Muskoka. That regional body has continued in one form or another since, at first meeting informally once or twice a year, and now meeting monthly to drive the trails agenda for all of Muskoka.</p> <p>The Muskoka Trails Council became an incorporated Not-For-Profit body in 2007, and in 2009 received federal charitable status.</p> <p>http://www.muskokatrailscouncil.com/about-muskoka-trails-council.php</p>
