**Subject: Limited quantities of Similac® Alimentum® 32 oz. (946 mL) ready-to-feed available**

Dear valued customer,

Abbott wishes to thank you for your support during the current infant formula supply shortage and to inform you of a limited supply of **Similac® Alimentum® 32 oz. (946 mL)** being imported from the United States (US) to help address urgent needs.

Similac® Alimentum® 32 oz. (946 mL) from the US was added by Health Canada to the Interim policy on the importation and sale of infant formulas, human milk fortifiers and dietary products for the treatment of inborn errors of metabolism to mitigate shortages, allowing its import and distribution in Canada. You may consult details by clicking on the link: [Interim policy on the importation and sale of infant formulas, human milk fortifiers and dietary products for the treatment of inborn errors of metabolism to mitigate shortages – Canada.ca](#)

Similac® Alimentum® 32 oz. (946 mL) will be distributed with the US label. Please find enclosed the translation of the label as well as the Canadian contact information. This bilingual documentation is provided for your customers and patients. You also have access to the label information by clicking on these links:
