Date: March 22, 2021

The Simcoe Muskoka District Health Unit (SMDHU) is committed to providing time sensitive public health information to health professionals and community partners. Effective March 31, 2021 SMDHU will cease the distribution of HealthFAX via fax and will be transitioning to an email notification system titled **Public Health Alert**.

To ensure you continue receiving time sensitive **Public Health Alert** by e-mail, you will need to register. Please visit smdhu.org/PHAlert and complete the online form.

Note: An online form must be completed for each email address that expects to receive **Public Health Alerts**. If you are responding on behalf of an organization/facility you can chose to provide one primary email address.

We are aware that you may have provided contact information recently to the health unit; however, the health unit requires everyone including existing subscribers to register as this transition includes a change to a different platform.

If you require further information, please contact: publichealthalert@smdhu.org.
