Dear Dr. Grdisa

Re: Supervised Consumption Site (SCS)

There has been some confusion as to the correct address for the proposed SCS. The legal address is 80 Bradford Street, Suite 940 but for practical matters the premises were identified as 19 Innisfil Street to the co-applicants (Canadian Mental Health Association, Simcoe County Branch and Simcoe Muskoka District Health Unit).

Upon further review, we would like to officially correct the street address at these premises to be better known as **11 Innisfil Street**. As the premises are located at the extreme west side of the building at 80 Bradford Street (with no internal access to the remainder of the building) using the legal address is misleading.

Going forward, we will refer to the entrance into this side of the building as **11 Innisfil Street** and we support the co-Applicants moving forward with getting approval for this address change for this unit, if possible.

We trust this clears up any misunderstanding.

Yours truly
